The following are some of the results achieved:

+1000 change agents
exchanging experiences
in dialogue processes and networks
in the region, from which:

More than **350** PEOPLE
TRAINED,
from which **44%** were
women

6 Multi-stakeholder
alliances have been
supported

2 STRATEGIES
for the sector have been
SUPPORTED

2 PRIVATE-PUBLIC
partnerships to develop automated
machinery and tailings analyses

The Programme supports the Andean countries in designing and implementing sustainable mining practices, as well as promoting transparency along mineral supply chains with the aim of contributing to the sustainable development goals and the climate agenda.

The Programme is divided into three activity areas:

▶ Policies and
strategies

▶ Stakeholder
Governance

▶ Technological Transfer and
Innovation Promotion
